BRINGING HR & FINANCE TOGETHER

THE APS AND SAGE INTACCT INTEGRATION FACILITATES THE ALIGNMENT OF PAYROLL AND FINANCE DATA, INCREASES THE ACCURACY OF FINANCIAL REPORTING, AND ELIMINATES ADMINISTRATIVE BURDENS.

This streamlined approach is accomplished through automated syncing of employee information, dimensions, and GL data to create an ecosystem that minimizes data entry and errors.

WHAT THE INTEGRATION DOES

The APS and Sage Intacct integration unifies your payroll and finance information for accurate data and time savings.

- Mirrors the Chart of Accounts and supports any number of dimensions.
- Chooses the data delivery option with either push button syncing or fully automatic payroll journal posting on the check date.
- Maintains audit logs and provides data preview before syncing to catch errors before they happen.
- Automates live check reconciliation and identifies missing data quickly with the Check Register integration.

How the Integration Works

With our simple configuration, you're ready to start seeing the benefits of automation. Our one-time setup allows you to choose turnkey or push-button syncing, and preview the file for truly automated accounting.

- **Standard and User-Defined Dimension Syncing:** Automatic syncing of dimension items from Sage Intacct to APS, including user-defined dimension.
- **Employee Time Tracking by Dimension:** Track and report time within APS by dimensions on time cards, timesheets, and mobile.
- **Employee Record Syncing:** Automatic syncing of employee data from APS to Sage Intacct.
- **Payroll Expense by Dimension:** View liabilities and expenses by dimension in the payroll batch.
- **Native Sage Intacct General Ledger Automation:** Automatically sync general ledger data into Sage Intacct by dimension.

KEY INTEGRATION BENEFITS

- Utilize an all-in-one, cloud-based solution that unifies all payroll and HR functions.
- Increase the accuracy of financial reporting by capturing payroll data using dimensions and advanced restrictions.
- Automatically sync employee information, dimensions, and GL data to create an ecosystem that minimizes data entry.
- Leverage industry-leading payroll/HR and accounting solutions and top-rated support to create a best-in-class tech stack.
- Eliminate the administrative burden and risk associated with payroll tax compliance.
